

SCHOOL OF EDUCATION SEMINAR

Children's Experiences and Use of a Forest Garden: A Swedish Example

(Jakob Roszak, aged 8)

Led by

Maria Hammarsten
(Jönköping University)

Maria is a school-age educare educator, outdoor educator and researcher. In this seminar, she will share her current work focused on children's experiences and use of a forest garden (school) in southern Sweden, part of an on-going project on forest gardens for sustainable development at Jönköping University. This work builds on Maria's previous research concerning outdoor learning and outdoor education, with an emphasis on the child's perspective.
